

## Rehoboth Baptist Association

Appalachian Mountain Ministry, Pete Soots, Director

January 2022

With all the help of the Rehoboth Baptist Churches and people in our community, we made 2005 children incredibly happy in the Appalachian Mountains. We are getting ready for next year as we write and hope you will all be on board as we are changing gears and doing it a little different.

We hope it will help churches by having only to run a campaign and raising the funds and sending it to us.

We will buy everything in bulk and keep the price at the same level as last year \$40.00 per bag.

We will ask churches to help us pack back packs when all items are received. After a little practice we feel with ten people we can pack 500 bags in a day.

Some of the churches have already asked to help make the modules which speeds up the packing process.

Every child will get the same equivalent item for gender and age. Every child will get every item and hopefully make some incredibly happy children. A letter is coming out to all pastors any day now and a copy of the letter is being sent to WMU and Mens lead to help get information out.

The Coat project has been a giant success as we sent an estimated 1400 coats to adults and children in the mountains and I now with the winter they have so far, they are enjoying those coats. Thank you to everyone who helped with this project

**Volunteers:** We are still in need of men available to help load trucks an average of once a week.

**If you can help, please give me a call at 478-396-9316.**
